Precuts Quilt: Aura Gems

# Precuts Quilt: Aura Gems

## Fabric Requirements

To make Aura Gem, we used two Jinny Beyer 10" Patty Cakes, Sunset and Galaxy, from the Palette collection.

Layout the 10" squares from both Patty Cakes according to color, then value.

Pair them up into sets of two.

## Cutting Instructions

1. Sew a  $\frac{1}{4}$ " seam allowance around two 10" squares that are matched up right sides together.

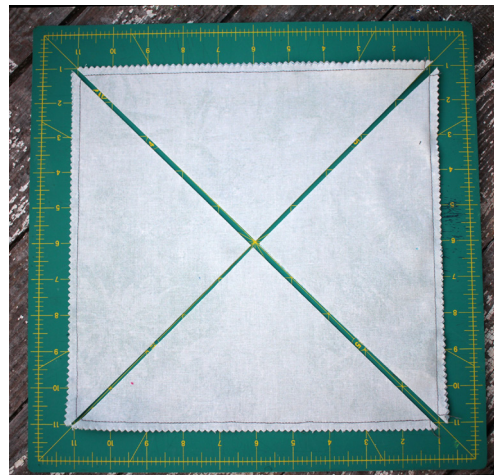

2. Cut the sewn squares in half diagonally.

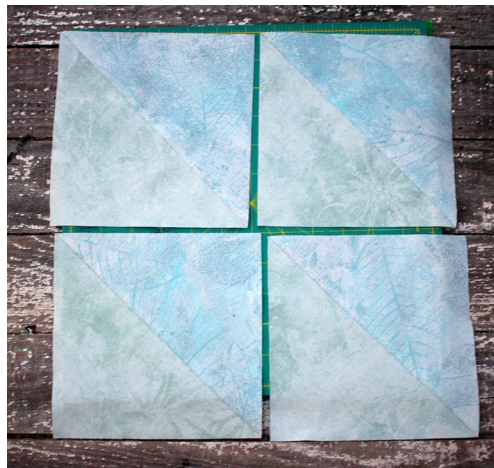

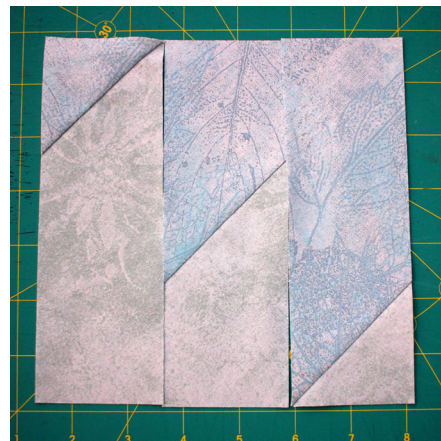

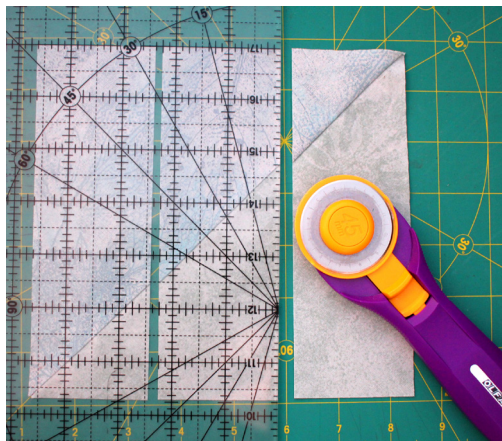

- Cut the sewn square in half diagonally the other way.

- Press the half square triangles open pressing the seams toward the darker fabric. Each square set makes 4 half square triangles.

- Cut each half square triangle into three equal pieces. Ours were  $2\frac{1}{2}$ " x  $6\frac{3}{4}$ " rectangles. Repeat this process with the 160 half square triangles resulting in 480 rectangles.

- Layout the rectangles in rows. Create whatever type of design you like. It is a lot of fun to play with the colors, light, and intensity. We chose the lay all the angles in the same direction. Follow your creative spirit!

## Assembly

Once laid out, sew the rectangles into rows. Sew the rows together to assemble the quilt. Our quilt measures 14 rows of 33 rectangles.
